MEMORANDUM FOR THE RECORD

SUBJECT: Proposed Agency Legislative Package--Retirement
Fund Crossover Point

STAT I talked to [] and relayed to him Col. White's
request that appropriate information be contained in his (Col. White's)
briefing book relating to the crossover point for the Agency Retirement
Fund. This would be the point at which the maximum of
holdings would be reached and after which there would be a decline
STAT to a point where the Agency would require appropriations to
maintain the fund. [] advised that he would have his
people do two projections: the fund under present authority, and the
fund with the transfer of employer contributions from prior retirement
coverage of the individuals now participating in the Agency
system. He is having his people shoot for the end of the week for
completion.
